

**YOU DON'T
KNOW WHAT
YOU'VE GOT
UNTIL IT'S
GONE.**

NOTHING IS MORE IRRITATING OR UNCOMFORTABLE THAN A COLD MORNING SHOWER!

For the home-owner or condominium dweller, nothing is quite as uncomfortable as a cold shower in the morning.

A restaurant, dialysis center, hospital and many other businesses without hot water, are essentially out of business until service is restored. Having hot water is mandatory.

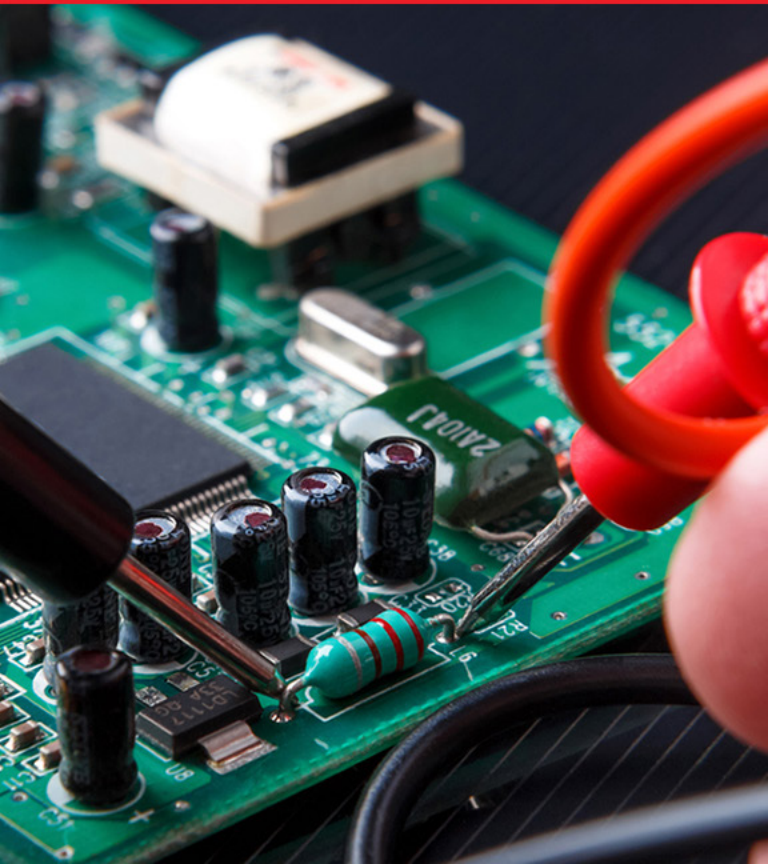

Without hot water, many manufacturing plants are forced to shut down and cease production when hot water is unavailable. Often this is a Hot Water 911 – emergency condition.

The days of going to the local hardware store for water heater parts, or calling the local plumber for service, are long gone.

Like modern automobiles and computers, domestic and industrial water systems have evolved. They have become technologically advanced, sophisticated and highly complex systems requiring the knowledge and experience that can only be provided by factory-trained experts.

Call for Emergency Service: 800.GO HOT WATER

**TODAY'S COMPLEX HOT
WATER
SYSTEMS REQUIRE FACTORY-
TRAINED TECHNICAL EXPERTS.**

A RESTAURANT WITHOUT HOT WATER IS OUT OF BUSINESS UNTIL SERVICE IS RESTORED.

Not only does Hot Water 911 offer the fastest possible emergency response, our proprietary "Grab & Go" parts management system virtually assures that regardless of the make or model of your water heater, the part your system needs will be on our truck when we pull into your parking lot.

We stock every part for most every water heater system manufactured in America as well as many European systems and tankless technologies.

We are the only service organization that can boast of this capability.

WE ARE SPECIALISTS

Our firm serves a broad range of companies, individuals and institutions including restaurants, resorts, hair salons, apartment buildings, private residences, senior housing centers, condominiums, hospitals, dialysis centers, schools, food processing and manufacturing facilities of all kinds.

EMERGENCY SERVICE 24-7

At Hot Water 911, our commitment is to provide the fastest possible emergency service. In addition, we pride ourselves in having the nation's most comprehensive disaster recovery program. We operate 24 hours a day, 365 days per year. Our response is immediate.

CONSULTING SERVICES

Owners and managers of restaurants, hospitals, dialysis centers, condominiums, apartment buildings, food processing plants, manufacturing facilities demand dependable, uninterrupted supplies of hot water.

A cold shower at home is merely an uncomfortable inconvenience. When a restaurant is without hot water, it's out of business. It's a 911 emergency!

Like most things in today's world, hot water systems have grown technologically complex. Choosing the proper system, and keeping it running properly, is a job for highly trained technical experts.

Most owners and managers find the hundreds of hot water system options confusing. Selecting the appropriate system can be difficult and, more importantly, the financial consequences can be significant.

Hot Water 911 offers the following consulting services:

- **Hot Water Needs Analysis**
- **Architect/Engineer Technical Support**
- **Long-Term Systems Planning**
- **Capitol Improvement Budgeting**
- **Energy Efficiency Systems Analysis**
- **Existing Systems Retrofit Design**
- **Green Technology/Tankless**
- **Green Technology/WS Heat Pump**
- **Rapid Response Disaster Recovery**
